CONCLUSION

I pray that the honorable District Judge Terry R. Means looks at my case and sees that I am an educated man now. I have been attending school for over two years now. LDL-C levels > or = 190 mg/dL may indicate familial hypercholesterolemia (FH). Clinical assessment and measurement of blood lipid levels should be considered for all first degree relatives of patients with an FH diagnosis. LDL Cholesterol (LDL-C) levels > or = 300 mg/dL may indicate homozygous familial hypercholesterolemia (HoFH). Untreated, these extremely high LDL-C levels can result in premature CV events and mortality. Patients should be identified early and provided appropriate interventions to reduce the cumulative LDL-C burden from birth.

)	Wife

I Gamaliel Sanchez Lopez, am submitting this motion for compassionate release because of Family circumstances pursuant to 18 U.S.C. § 3553(a). To The United States District Court for The Northern District of Texas.

FAMILY CIRCUMSTANCES

My wife Raquel Sanchez Morales took a trip to Mexico because she had not seen her parents for about 20 years. As she arrived to her parents house, her Brother was under the influence of alcohol and drugs, and proceeded to assault her. The assault was so bad that she required hospitalization for injuries suffered at the hands of her brother. (Exhibit A). She spent a total of two full days at the hospital in Mexico recovering from injuries suffered at her own Brother's hands.

01 When she came back to the United States, a very short time later,
02 She had a relapse from her injuries, that she went into a coma and
03 was hospitalized again (Exhibit B) . She was in a coma for about
04 two full months. Ms. Sanchez-Lopez is still under Dr. care and
05 she has not fully recovered. Her 20 year old daughter is taking
06 care of her, however her daughter is getting married soon and she
07 is moving away with her husband, leaving Ms. Sanchez-Lopez with no
08 one to care for her and help her during her recovery. Dr. don't
09 yet know if there will be long term effect related to the injuries
10 she suffered from this viscious attack. (EXhibit C)

11 In addition to my wife's condition, our 3 year old son suffers
12 from various medical issues and he is in constant need of help.
13 As mentioned above, My 20 years old daughter was also taking care
14 of her younger brother. With her upcoming marriage, My wife and
15 my son will be left with no care taker.

16 CONCLUSION

17 Whrefore, for the foregoing reasons, and any other reasons the
18 court deems just and appropriate, Mr. Sanchez- Lopez prays that
19 this honorable court "GRANTS" his motion for compassionate release.
20 Mr. Sanchez Lopez being Lament untutored in the law respectfully
21 request the appointment of cpunsel to assist him in this matter.
